

UMME MISBAH SIKANDAR

ML Data Operations • Data Annotation & Quality • AI / ML

+91-9606274094 | misbasikandar7@gmail.com | LinkedIn | GitHub | Bengaluru, India

PROFESSIONAL SUMMARY

Detail-oriented AI/ML student with hands-on experience preparing, labeling, and validating ML training data across text, image, and structured datasets. Skilled in following defined instructions and SOPs precisely, meeting daily productivity and quality targets, and performing quality audits to ensure accurate ground-truth data. Strong written and spoken English, proficient in Microsoft Office, comfortable with flexible schedules, and experienced using internal tools and data capture systems in fast-paced, deadline-driven environments. Combines linguistic attention to detail with practical Python/ML pipeline experience to understand *why* data quality matters for downstream model performance.

EDUCATION

HKBK College of Engineering (VTU), Bengaluru

B.E. in Artificial Intelligence & Machine Learning

2023 – 2027

CGPA: 8.0 / 10

–Relevant coursework: Machine Learning, Natural Language Processing, Data Structures & Algorithms, Computer Networks, Operating Systems

EXPERIENCE

AI/ML Intern | ShadowFox

Oct 2025

- Performed data preprocessing, cleaning, and feature engineering on real-world datasets, following defined instructions to produce accurate, consistent inputs for model training.
- Conducted quality audits and iterative validation, improving downstream model accuracy by **12%** through careful data review and correction.
- Tracked task progress and maintained clear documentation; escalated data issues and edge cases promptly within team workflows.

ML Intern | SkillCraft Technology

Nov 2025

- Labeled and validated data for classification tasks using Python and pandas, adhering strictly to task guidelines and compliance requirements.
- Wrote and executed test cases (pytest) to catch data and logic errors across edge cases, maintaining high internal quality standards.
- Participated in reviews, incorporated feedback quickly, and helped standardize documentation for repeatable, high-quality output.

RELEVANT SKILLS FOR DATA OPERATIONS

Data Quality: ML data annotation & labeling exposure, ground-truth preparation, quality audits, edge-case handling, SOP/guideline adherence

Language & Communication: Fluent written and spoken English, strong grammar/linguistic accuracy, clear status reporting

Tools: Microsoft Office (Word, Excel, PowerPoint), Python, pandas, Git, internal data-capture-style tooling (via ML pipelines)

Work Style: Meets daily productivity and quality targets, flexible with schedule/shift, comfortable with repetitive structured tasks requiring sustained accuracy

PROJECTS (ML & Data-Focused)

CodeBeast – AI-Powered Hackathon Evaluation Platform

2026

- Built a 7-agent evaluation system requiring precise, structured data extraction and validation from GitHub repositories across multiple quality dimensions.

Stack: Node.js, React, Claude API, SQLite

MedOrchestra – Clinical Data Pipeline

2026

–Built retrieval pipeline over PubMed abstracts requiring careful data curation and validation for accurate clinical reasoning outputs.

Stack: Python, FastAPI, LangGraph, ChromaDB

NutriSense AI – Food Image Recognition

2026

–Integrated Gemini Vision for image-based data recognition, handling annotation and validation of visual inputs.

Stack: Python, FastAPI, Google Gemini API

ADDITIONAL TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), C, SQL

AI / ML: Multi-agent systems, RAG pipelines, Gemini API, Claude API, YOLO, Transformers

Cloud & DevOps: Google Cloud Run, Firebase, Docker, Git, GitHub, Linux/Bash

ACHIEVEMENTS & PATENTS

- **Registered Design Patent** – Smart Spectacle for Blind People, Government of India (Design No. 477817-001, Serial No. 219846)
- **Winner** – Hack2Skill Promptwars 2025 (VoteWise, 200+ teams)
- **Top 10** – Internal Smart India Hackathon 2025 (HydroHack)
- **Selected Applicant** – Samsung Solve for Tomorrow 2026 (NeuroBuddy)
